FOR IMMEDIATE RELEASE

Integrity Life Sciences Featured on ebay™

Tampa, FL, USA, FEBRUARY 13th, 2016: The San Jose, California, e-commerce giant *ebay*™, has recently featured products manufactured by Integrity Life Sciences, in partnership with Axiom Worldwide. While *ebay*™, is primarily known as a consumer-to-consumer web based portal, the business-to-business commerce sector continues to make wide gains on *ebay*'s™ revenues.

The *Integrity Gel Support Brace*™ will have the primary presence. Certain products will still require physician approval prior to sale, but certain service related items relating to the *DRX9000 True Non-Surgical Spinal Decompression Systems*™ will slowly be offered. The company urges any potential buyer to contact the company prior to any purchases to ensure patient safety and that federal law is adhered to for any items posted for sale. The growth of *ebay*™ is well known and now has a presence in over 30 countries. The goal of Integrity Life Sciences, in partnership with Axiom Worldwide, is to be an approved vendor for Amazon™ in the coming weeks.

Integrity Life Sciences delivers a multitude of orthotic treatment options to address one of the most costly systemic ailments in the world, chronic low back and neck pain. Our advanced solution begins with the *Integrity Spinal Care System (ISCS)*™ and its proprietary *iELCiPS Technology*™. The ISCS non-surgical spinal decompression modality systems are engineered to provide pain relief for compressive and degenerative conditions of the spine. Specifically, conditions that may be treated include: neck pain and back pain associated with herniated discs, protruding discs, degenerative disc disease, posterior facet syndrome, and sciatica. It achieves these effects through decompression of intervertebral discs, that is, unloading due to distraction and positioning.

As a compliment to the ISCS, Integrity offers the very effective *Integrity Gel Support Brace*™. Our advanced lumbar support brace is a fitting compliment to non-surgical spinal decompression therapy and was designed as an adjunct therapy for those suffering from back pain due to disc related conditions. The Integrity Gel Support Brace may be used with or without Integrity's non-surgical spinal decompression systems and is an excellent treatment option for the patient to use at home.

In addition, Integrity Life Sciences has been exclusively granted the use of all of the technology, products, US Patent and Trademark Office's assignments, logos and other forms of intellectual property that were created by **Axiom Worldwide, INC** under the leadership of Jim Gibson from Tampa, Florida.
